

ROTOTWIRL

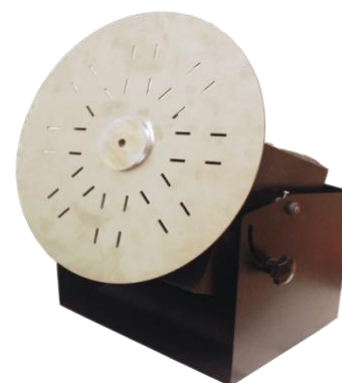

Tube Rotator

(for rotating microcentrifuge and centrifuge tubes/ bottles)

With knobs for controlling speed

Rust resistant SS/ PMMA discs)

- ✓ **Three different discs for rotating microcentrifuge tubes, centrifuge tubes and bottles**
- ✓ **Two knobs for speed control**
- ✓ **Soft start**

RotoTwirl Flex Adjustable Angle rotator

RotoTwirl Flex Adjustable Angle Tube rotator

(for rotating microcentrifuge and centrifuge tubes/ bottles)

With adjustable angle, knobs for controlling speed

Rust resistant SS/ PMMA discs)

- ✓ **Three different discs for rotating microcentrifuge tubes, centrifuge tubes and bottles**
- ✓ **Adjustable angle**
- ✓ **Two knobs for speed control**
- ✓ **Soft start**

Features of this apparatus

Rugged

- Base made of rugged mild steel
- Discs made of chemical resistant stainless steel
- High torque motor ensures long term use

Error Minimization

- Dual knob for speed control
- Soft start ensures no spillage due to sudden movement

Convenient

- Easy operation to change speed via knobs
- Multiple disc types help save laboratory space

Economical

- Low-cost alternative to expensive imported equipment.
- Large surface area accommodates multiple tubes.

Ready-to-use system includes

1. Tube Rotator, with angle adjustment
2. Mains cord

Rototwirl Tube Rotator
TMTRR-T0DC0C

1 pcs.

Rototwirl Flex Adjustable
TMTRR-TFDC0C

1 pcs.
2 pcs.

Discs to be ordered separately

Discs Available:

1. Disc for microcentrifuge tubes - #TMTRS-DP8802
Number of tubes - 88 nos.
Size of tubes - 1.5 mL/ 2 mL
2. Disc for centrifuge tubes - #TMTRS-DS8050
Number of tubes - 8 nos.
Size of the tubes - 15 mL/ 50 mL
3. Disc for bottles - #TMTRS-DS4500
Number of bottles - 4 nos.
Size of the bottles - 100 mL - 500 mL

Ordering description

Rototwirl Tube Rotator (TMTRR-T0DC0C): Ready-to-use system, with a single disc. Body made of powder-coated mild steel, with levelling legs for stable operation, a high-torque DC motor, dual speed control knobs, with soft start mechanism. It can support discs that can hold microcentrifuge, centrifuge tubes or bottles (capable of supporting 4 bottles of upto 500 ml each)

Rototwirl Flex Adjustable Angle Tube Rotator (TMTRR-TFDC0C): Ready-to-use system, with an angle-adjustable disc. Body made of powder-coated mild steel, with levelling legs for stable operation, a high-torque DC motor, dual speed control knobs, with soft start mechanism. It can support discs that can hold microcentrifuge, centrifuge tubes or bottles (capable of supporting 4 bottles of upto 500 ml each)

Tube Rotator and its spares and accessories

Item Description	Cat. No.	Unit
RotoTwirl, ready-to-use tube rotator, with a single disc, MS body, soft start mechanism, with speed control and DC motor.	TMTRR-T0DC0C	System
RotoTwirl Flex Adjustable Angle, ready-to-use tube rotator, with angle adjustable disc, MS body, soft start mechanism, with speed control and DC motor.	TMTRR-TFDC0C	System
Disc for microcentrifuge tubes	TMTRS-DP8802	Unit
Disc for centrifuge tubes	TMTRS-DS8050	Unit
Disc for bottles	TMTRS-DS4500	Unit
Mains power 3 pin cable cord with a shrouded female IEC connector (IEC-320-C13) at one end and 3 pin grounded prong connector (Type D) at the other end	TCC0S-CRDMNS	Piece
